

Tézier

HELIANTHUS annuus
«AUTUMN TIME»

Tézier bred variety

Annual

A breakthrough in sunflower breeding.

First semi-tall mixture of single flowers in shades of golden yellow, red and brown, bred by Tézier and which received a Novelty Status in the Fleuroselect trials.

Flower diameter 10-12 cm. We consider this novelty a true improvement of the Sunflower Autumn Beauty. No more staking is necessary since the plant will reach a height of only 140 cm. No need for transplanting.

The main stem produces a multitude of branches and the side stems are still long enough for cutting. Vase life : 14 days.

Use : Superb in the garden, ideal for cutting.

Seed count : 35 seeds per gram, 8 plants per m².

Sowing : Direct sowing April-June outdoors where to flower.

Germination : 15°-18°C in 7-14 days.

Growing temperature : 10°C.

Sowing to flower : 60 days only.

Cultural hints : Cut flowers in bud.

Height : 140 cm.
